VIDEO FEATURES EXPLAINED:

Why Sidney & Company for video? We provide a custom experience with good customer service. Incorporating your personalities with footage that we capture, we show your moments - from fun too funny, dramatic romance to traditional – by not just telling your story, but by providing an *experience*.

DOCUMENTARY (EXTENDED HIGHLIGHT FILM)

The Documentary Edit tends to be 20-45 minutes in length - depending on the length of the ceremony, special dances/events, cake cutting, and toasts. This Documentary Feature is great package for our couples that are looking for something simple and straight forward.

FEATURE PRESENTATION

Our Feature Film generally runs 45-90 minutes in length. Includes important moments like your entire wedding day in real time with the natural audio mixed in with music video vignettes. This is really suited for our couples that are interested in a full-length movie for their wedding day.

LOVE STORY ENGAGEMENT VIDEO (BEFORE THE DAY)

Our Director's Cuts are generally 10-15 minutes in length and are edited to tell your love story by capturing footage on-location before your wedding day, mixing in music, and allowing your feelings for each other to shine through! Our love story edit is truly one of our most creative and artistic options.

OUR JOURNEY (BEFORE & AFTER)

This edit combines footage from your love story engagement video and your wedding day to tell the entire story of your journey to the altar! By using additional footage of before wedding, pre-ceremony and after ceremony footage, mixing in music and natural audio with all the best moments of your wedding day, this edit is truly remarkable and will be remembered by all.
